# TATTOOING TO SAVE BABIES

## YOU OR YOUR TATTOO SHOP CAN MAKE A DIFFERENCE

Tattooing to Save Babies will take place this year on September 24th 2011. We have raised over \$30,000.00 in the last three years for the March of Dimes. We need your help! If you have any questions feel free to email me at [krookedken@gmail.com](mailto:krookedken@gmail.com)

It's as easy as 1,2,3!!! Tattoo on Sept. 24th just like any other day and at the end of the day donate all of your proceeds by mailing your check or money order or by using your pay pal account. All proceeds need to be received no later than November 1st. You will receive a receipt for your donation from the March of Dimes. You can mail your donation to Tattooing to Save Babies at 1201 Tuckahoe Ct. Denton MD 21629 or pay pal at [krookedken@gmail.com](mailto:krookedken@gmail.com). As parents to two premature children the March of Dimes has been an amazing source of strength and support to our family. The continue to fund and find amazing way to save a child that has been born too soon. Through education and awareness we can fight against babies being born prematurely and having to face life long disabilities and even infant

mortality. One in every eight babies born, are born prematurely. Prematurity affects many of us, whether it's you family, a friend, neighbor or co-worker, prematurity does not discriminate. As many of you know we have a beautiful healthy son Gradon that is now 12 years old. But our family has also faced many hardships. Prematurity has affected our family in many ways that know parent should ever know. We had two beautiful daughters in December 2005 and August 2006 Gabrielle Lynn and Abigail Marie that were born prematurely but only lived a few short hours. Since the deaths of our daughters we as a family continue to fight the battle against prematurity. Please help us with this fight for a great cause and be a part of Tattooing to Save Babies. Thank you, Krooked Ken

The Black Anchor Tattoo Family has raised of \$30,000.00 for the March of Dimes in 3 years.
